

SEA STORIES

**OCEAN APPRECIATION
WORKSHOPS WITH
DANNIKA PATTERSON**

POETRY - PHOTOGRAPHY - SCIENCE - STORY - ART

This creative workshop encourages participants to enjoy, respect and protect our oceans. Dive into a multi-disciplinary exploration of ocean environments, using books by Dannika Patterson, as reference texts.

- Presented by author Dannika Patterson, this workshop was developed to help foster a deeper understanding & appreciation of the sea and its creatures, through creative word & picture pairings, plus a splash of science.
- Using working examples from her ocean-inspired books; *SeaSpray17*, *Beach Kindy* and *Sera, The Shell and the Storm*, Dannika's workshops aim to inspire ecological awareness & a love of books in a gentle, joyful, highly-engaging way.
- Participants will learn about the life cycle, habitat and migratory patterns of the Greenback Turtle, and will have the opportunity to create their own artistic interpretation of 'Mr Greenback' from reference text *SeaSpray17*.
- Curriculum-links built into this workshops include; narrative writing, poetry, science inquiry skills, environmental science, habitats, life-cycles, earth systems, ethical understanding, cultural understanding & sustainability.
- This workshop is 100% waste-free, with all materials being either recycled, upcycled or compostable.
- Most suited for children Kindergarten - Year 6, but can be adapted to other age ranges as well as for adult learning.
